

17 OCT 2016:

Local Letter to the Editor

From The Sacramento Bee: ***Kudos for climate editorial***, Judy Weiss, Brookline, Mass. (print, 5B). Re: "A crystal clear choice on climate change" (Bee Editorial, Oct. 13).

the letter is not available on line. I submitted:

Dear Editor,

So many newspapers urge voters to vote for Clinton because of Trump's inadequacies, or focus on Clinton's experience and service to country, but few mention her support for climate action versus his naming climate change a hoax.

In a year when climate change should be the driving force behind every voting decision--from White House, to Congress and governors' offices and state legislatures--I appreciate your editorial that focused attention for a minute just on climate.
