# Thank you for CCL article

[The Norman Transcript](#)

NORMAN — Editor, The Transcript:

Thank you for running such a fine article about the three members of the Norman chapter of Citizens' Climate Lobby who traveled to Washington, D.C., for CCL's annual conference and their efforts to help publicize why we need Congress to enact a carbon tax on fossil fuel producers with rebates to the public.

Every year, CCL doubles in size because we are sharply focused on only one issue and only one solution, and we are truly bipartisan. I urge your readers to attend our next monthly meeting.

Dr. Katharine Hayhoe, an evangelical climate scientist cited by Time Magazine as one of the 100 most influential people in the world, will be our speaker on July 12.

Judy Weiss

Brookline, Mass.
